

## LAUNCH

### NEW 110 LITRE HIGH CAPACITY NON-REFILLABLE CYLINDERS FOR TEST AND CALIBRATION GASES

### CONFORMS TO THE LATEST EUROPEAN LEGISLATION **EN12205**

The new 110 litre high capacity cylinder from Euro-Gas is a unique product that provides more gas in the same convenient size cylinder as before, ensuring lower cost gas and less frequent ordering.

- ❑ One cylinder for all gases – non-reactive, reactive and high reactive
- ❑ Lightweight aluminium construction – easier to recycle than steel cylinders
- ❑ More gases available in this disposable format than from any other company
- ❑ Compatible with existing valves and regulators
- ❑ Fully compliant with European Regulations

### MORE GAS - LESS COST

Euro-Gas precision gas mixtures are available in a variety of lightweight, non-refillable cans and cylinders for testing and calibrating gas detection equipment. Also available are a wide range of valves, regulators and accessories.
